Integrated Library Management System (ILMS)

SOUL (Software for University Libraries) which is in operation with from the THIRD cycle itself is state-of-the-art integrated library management software designed and developed by the INFLIBNET Centre based on requirements of college and university libraries. It is user-friendly software developed to work under client-server environment. The software is compliant to international standards for bibliographic formats, networking and circulation protocols. After a comprehensive study, discussions and deliberations with the senior professionals of the country, the software was designed to automate all housekeeping operations in library. WEB OPAC (Online Public Access Catalogue) which is software in operation is highly versatile and user-friendly for simple and advanced search. OPAC users can export their search results in to PDF, MS Excel and MARCXML format.

Name of ILMS software: SOUL (Software for University Libraries)

Nature of automation (fully or partially): Partially

Version: 3.0

Year of Automation: 2022
