Roha

Academic Year: 2022-23

Governance Reflecting Vision and Mission of the Institute

Vision

Avail the facility of education to the downtrodden community for the development of society.

Mission

To enable students to develop their overall knowledge and personality and to become responsible citizen for personal and professional growth

Following activities in governance show the reflection of vision and mission of the institution

- The institution is committed to empower its young and talented but socioeconomically and educationally weak thousands of student stakeholders by providing them with knowledge, skills, values and development opportunities at affordable cost and also to enrich the environment of this rather underprivileged region through their own creative and constructive deeds.
- The leadership, comprising of the management, the Principal, IQAC and the HoDs of various academic departments and co-curricular activity departments invest collective efforts bringing in a conducive academic atmosphere in the college.
- The strategic plan of the institution, the governing body gives a proper sense of direction to the activities of the institution and mobilizes financial resources without any interference in the academic matters.
- The head of the institution and chairperson of all committees and cells, the Principal imparts timely instructions to the HoDs during meetings of Departments to take stock of situations and decide on

quality parameters as provided by the IQAC from time to time. He also gives his valuable inputs during meetings of bodies like IQAC, Planning Forum, WDC, Examination Committee, Research Cell, Students' Council, etc.

- The teachers are motivated with all sorts of support to work creatively on various statutory bodies and other committees made for need-based extension activities. Also, the views and suggestions of student representatives on various bodies are taken into consideration while planning various activities.
- The faculty has been trained and retrained to acquire modern teaching skills and access to classrooms with ICT facilities leading to the delivery of quality education. The faculty is also engaged in placing their acquired knowledge at various platforms like seminars and conferences.
- The extension activities in collaboration with various organizations and dealing with varied issues like gender equity, environment protection, etc. have sensitized the youth and made them responsible citizens. Also, in this pandemic year 2020-21 the institution displayed good governance with its administrative and academic initiatives for reaching the goals as stated in vision-mission. Online admission with online payment gateway was also initiated. Teachers were trained for e-teaching and evaluation through Zoom Platform and through available free academic tools.
- As a lead college of cluster, the planning, supervision and troubleshooting of university examination related activities were also conducted successfully.
