Program Specific Outcomes (PSOs)

Bachelor of Arts (B.A) – Specialization in (A) Economics Or (B) History Or (C) History and Economics

Bachelor of Arts (Economics)

- PSO-1 Delivering knowledge and skills in the micro-economics, environmental economics, industrial and labour economics, international economics, development economics and export management.
- PSO-2 Develop understanding among the learners about various economical concepts, terminology, theories and problems & issues.
- PSO-3 Apply the knowledge, understanding and skills of economics to develop research aptitude and to solve the problems of society at local, national and at international level.

Bachelor of Arts (History)

- PSO-1 Delivering knowledge and skills in the history of Maratha, India, Asia, the World and Archaeology.
- PSO-2 Develop understanding and skills among the learners about History from local level to global level and systematic historical research and sources of history.
- PSO-3 Apply the knowledge, understanding and skills of history to develop research aptitude and to solve the problems of society at local, national and at international level. PSO-4 Motivating and inspiring people for ethical values, behaviour and for universal peace and harmony.

Bachelor of Arts (History & Geography)

- PSO-1 Delivering knowledge and skills in the history of Maharashtra, India, and Archaeology.
- PSO-2 Develop understanding and skills among the learners about History from local level to national and about museology & archival science.
- PSO-3 Motivating and inspiring people for ethical values, behaviour and for universal peace and harmony.
- PSO-4 Delivering knowledge and skills in the physical and human geography PSO-5 Developing understanding and skills among the learners about topological & thematic maps and various geographical issues.

Course Outcomes (COs)

a) Bachelor of Arts

1. F.Y.B.A.

Semester - I

1.1 Foundation Course

- CO-1 Spread awareness among the learners about the human values, universal values and social issues of the nation and the world.
- CO-2 Deliver information and knowledge of the human values, universal values and social issues of the nation and the world.
- CO-3 Develop understanding on human values, universal values and social issues of the nation and the world.
- CO-4 Inculcate values of tolerance, peace and harmony among the learners. CO-5 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to human values, universal values and social issues of the nation and the world.

1.2 Communication Skill in English

- CO-1 Spread awareness among the learners about importance of communication skills in English.
- CO-2 Deliver information and knowledge about language's grammar and literacy aspects. CO-8 Develop understanding language's grammar and literacy aspects.
- CO-3 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues to communication skills in English.

1.3 Language – Marathi

- CO-1 Spread awareness among the learners about Marathi language.
- CO-2 Deliver information and knowledge of forms of writing literature and language's grammar.
- CO-3 Develop understanding on forms of writing literature and language's grammar.
- CO-4 Inculcate values needed for overall personality development.
- CO-5 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues forms of writing literature and language's grammar.

1.4 History-I- History of Modern India

- CO-1 Spread awareness about modern India and struggle for independence. CO-20 Deliver information and knowledge growth of political awakening, Indian Nationalism, Gandhian Movements and Independence and partition.
- CO-2 Develop understanding on political awakening, Indian Nationalism, Gandhian Movements and Independence and partition.
- CO-3 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to political awakening, Indian Nationalism, Gandhian Movements and Independence and partition.

1.5 Geography-I - Geomorphology

- CO-1 Spread awareness among the learners about geomorphology.
- CO-2 Deliver information and knowledge of interior of the earth, endogenic processes and exogenic processes.
- CO-3 Develop understanding on interior of the earth, endogenic processes and exogenic processes.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to interior of the earth, endogenic processes and exogenic processes.

Semester – II

1.6 Foundation Course

- CO-1 Spread awareness among the learners about the human values, universal values and social issues of the nation and the world.
- CO-2 Deliver information and knowledge of the human values, universal values and social issues of the nation and the world.
- CO-3 Develop understanding on human values, universal values and social issues of the nation and the world.
- CO-4 Inculcate values of tolerance, peace and harmony among the learners. CO-31 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to human values, universal values and social issues of the nation and the world.

1.7 Communication Skill in English

- CO-1 Spread awareness among the learners about importance of communication skills in English.
- CO-2 Deliver information and knowledge about language's grammar and literacy aspects.
- CO-3 Develop understanding language's grammar and literacy aspects.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues to communication skills in English.

1.8 Language – Marathi

- CO-1 Spread awareness among the learners about Marathi language.
- CO-2 Deliver information and knowledge of forms of writing literature and language's grammar.
- CO-3 Develop understanding on forms of writing literature and language's grammar.
- CO-4 Inculcate values needed for overall personality development.
- CO-5 Develop critical analysis of interpreting the literature.
- CO-6 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues forms of writing literature and language's grammar.

1.9 History-II – History of Modern India: Society & Economy

- CO-1 Spread awareness about socio religious reform movement, education, press and transport.
- CO-2 Deliver information and knowledge of an impact of British Rule on Indian Economy. CO-48 Develop understanding nationalism and social groups
- CO-3 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to modern India.

1.10 Geography-I – Human Geography

- CO-1 Spread awareness about human geography among the learners.
- CO-2 Deliver information and knowledge of settlement, population and migration. CO-52 Develop understanding on settlement, population and migration.
- CO-3 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to settlement, population and migration.

S.Y.B.A.

Semester – III

2.1 Foundation Course – II

- CO-1 Spread awareness among the learners about the human values, universal values and social issues of the nation and the world.
- CO-2 Deliver information and knowledge of the human values, universal values and social issues of the nation and the world.
- CO-3 Develop understanding on human values, universal values and social issues of the nation and the world.
- CO-4 Inculcate values of tolerance, peace and harmony among the learners. CO-58 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to human values, universal values and social issues of the nation and the world.

2.2 Book-Keeping & Accountancy

- CO-1 Spread awareness among the learners about basics and fundamentals of Book-Keeping & Accountancy.
- CO-2 Deliver information and knowledge of Types of account, Journal Book, Ledger Accounts, Subsidiary Books, Cash Book and Petty Cash Book.
- CO-3 Develop understanding on importance of double entry system.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues fundamentals of Book-Keeping & Accountancy.

2.3 Economics-II

- CO-1 Spread awareness among the learners about utility, production, costs & revenue and types of market.
- CO-2 Deliver information and knowledge of utility analysis, production analysis, costs and revenue and competitive market.
- CO-3 Develop understanding on utility analysis, production analysis, costs and revenue and competitive market.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to utility analysis, production analysis, costs and revenue and competitive market.

2.4 History-II – Landmark in World History

- CO-1 Spread awareness about transition of Europe from medieval to modern times.
- CO-2 Deliver information and knowledge of most significant events and personalities of the period.
- CO-3 Develop understanding on making of modern world.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to world history

2.5 History-III – Ancient India from Earliest Times to 1000 A.D.

- CO-1 Spread awareness about different sources of Ancient Indian history.
- CO-2 Deliver information and knowledge of rich cultural heritage in India.
- CO-3 Develop understanding on political, socio-economic and cultural developments.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to Ancient Indian History.

2.6 Geography-II – An Introduction to Climatology

- CO-1 Spread awareness among the learners about climatology.
- CO-2 Deliver information and knowledge of air pressure, atmospheric circulation, humidity, precipitation and climate and weather phenomena.
- CO-3 Develop understanding on air pressure, atmospheric circulation, humidity, precipitation and climate and weather phenomena.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to air pressure, atmospheric circulation, humidity, precipitation and climate and weather phenomena.

2.7 Geography-III – Physical Geography of India

- CO-1 Spread awareness among the learners about physical geography of India. CO-84 Deliver information and knowledge of drainage, climate, soil, natural vegetation, minerals and power resources.
- CO-2 Develop understanding on drainage, climate, soil, natural vegetation, minerals and power resources.
- CO-3 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to drainage, climate, soil, natural vegetation, minerals and power resources.

Semester – IV

2.8 Foundation Course – II

- CO-1 Spread awareness among the learners about the human values, universal values and social issues of the nation and the world.
- CO-2 Deliver information and knowledge of the human values, universal values and social issues of the nation and the world.
- CO-3 Develop understanding on human values, universal values and social issues of the nation and the world.
- CO-4 Inculcate values of tolerance, peace and harmony among the learners. CO-89 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to human values, universal values and social issues of the nation and the world.

2.9 Book-Keeping & Accountancy

- CO-1 Spread awareness among the learners about accounting errors, BRS, Depreciation and Trial Balance.
- CO-2 Deliver information and knowledge on rectification of errors, Bank Reconciliation Statement, Depreciation, Trial Balance and final accounts.
- CO-3 Develop understanding on closing entries, Trading & Profit & Loss A/c and Balance Sheet.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to accounting errors and final accounts of a Trader.

2.10 Economics-III

- CO-1 Spread awareness among the learners about money, money market, the goods market and monetary & fiscal policy.
- CO-2 Deliver information and knowledge of money, money market, the goods market and monetary & fiscal policy.
- CO-3 Develop understanding on money, money market, the goods market and monetary & fiscal policy.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to money, money market, the goods market and monetary & fiscal policy.

2.11 History-II - Landmark of World History

- CO-1 Spread awareness about Inter War period.
- CO-2 Deliver information and knowledge of rise of Dictatorships, World War II Nationalist Movements in Asia.
- CO-3 Develop understanding on work of Kemal Pasha, Reza Shah, Mahatma Gandhi and related personalities.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to landmark of world history.

2.12 History-III – Ancient India from Earliest Times to 1000 A.D.

- CO-1 Spread awareness about major Dynasties in Ancient India.
- CO-2 Deliver information and knowledge of Mauryan and Post-Mauryan period, Gupta and post Gupta's period and major Dynasties of Deccan and south India.
- CO-3 Develop understanding on Mauryan and Post-Mauryan period, Gupta and post Gupta's period and major Dynasties of Deccan and south India.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related in Indian History to 1000 A.D.

2.13 Geography-II- Introduction to Oceanography

- CO-1 Spread awareness among the learners about nature of oceanography. CO-113 Deliver information and knowledge of bottom relief and ocean water, movements of ocean water and man & ocean.
- CO-2 Develop understanding on bottom relief and ocean water, movements of ocean water and man & ocean.
- CO-3 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to bottom relief and ocean water, movements of ocean water and man & ocean.

2.14 Geography-III- Agriculture Geography of India

- CO-1 Spread awareness among the learners about agriculture geography of India.
- CO-2 Deliver information and knowledge of Indian agriculture, green revolution and recent trends in agriculture.
- CO-3 Develop understanding Indian agriculture, green revolution and recent trends in agriculture.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues of agriculture geography of India

3 T.Y.B.A. (Economics)

Semester – V

3.1 Micro-Economics- III

- CO-1 Spread awareness among learners about microeconomic theory. CO-121 Deliver information and knowledge of monopoly, game theory, oligopoly and general equilibrium & welfare economics
- CO-2 Develop understanding on monopoly, game theory, oligopoly and general equilibrium & welfare economics
- CO-3 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to monopoly, game theory, oligopoly and general equilibrium & welfare economics

3.2 Economics of Development

- CO-1 Spread awareness among learners about concept related to economic growth & development.
- CO-2 Deliver information and knowledge of economic growth & development, issues in development process, inequality, poverty and development and technology & economic development.
- CO-3 Develop understanding on economic growth & development, issues in development process, inequality, poverty and development and technology & economic development.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to economic growth & development, issues in development process, inequality, poverty and development and technology & economic development.

3.3 Industrial & Labour Economics

- CO-1 Spread awareness among the learners about the structure of the Indian industrial sector and policies governing.
- CO-2 Deliver information and knowledge of industrial economics, industrial location and problem of regional imbalance, industrial productivity & industrial sickness and industrial development in India.
- CO-3 Develop understanding on of industrial economics, industrial location and problem of regional imbalance, industrial productivity & industrial sickness and industrial development in India.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to of industrial economics, industrial location and

problem of regional imbalance, industrial productivity & industrial sickness and industrial development in India.

3.4 Research Methodology

- CO-1 Spread awareness among the learners about economic research based on qualitative and quantitative data.
- CO-2 Deliver information and knowledge of elements of research methodology, sources of data and processing & analysis of data
- CO-3 Develop understanding on elements of research methodology, sources of data and processing & analysis of data
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to elements of research methodology, sources of data and processing & analysis of data.

3.5 Environmental Economics

- CO-1 Spread awareness among the learners about environmental problems. CO-137 Deliver information and knowledge of environmental economics, environmental policy, environmental improvement benefits and environmental problems.
- CO-2 Develop understanding on environmental economics, environmental policy, environmental improvement benefits and environmental problems.
- CO-3 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to environmental economics, environmental policy, environmental improvement benefits and environmental problems.

3.6 History of Economic Thought

- CO-1 Spread awareness among the learners about celebrated economists and their contributions.
- CO-2 Deliver information and knowledge of economists from classical period, Marginalist, Keynesian Ideas and post Keynesian development.
- CO-3 Develop understanding about the work done by economists from classical period, Marginalist, Keynesian Ideas and post Keynesian development.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to economists from classical period, Marginalist, Keynesian Ideas and post Keynesian development.

Semester – VI

3.7 Micro-Economics- III

- CO-1 Spread awareness among the learners about formal modelling of macroeconomic theory with analytical tools.
- CO-2 Deliver information and knowledge of Goods market in open economy, financial market, exchange rate regimes & exchange rate crisis and international monetary history.
- CO-3 Develop understanding on Goods market in open economy, financial market, exchange rate regimes & exchange rate crisis and international monetary history. CO-147 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to Goods market in open economy, financial market, exchange rate regimes & exchange rate crisis and international monetary history.

3.8 International Economics

- CO-1 Spread awareness among the learners about composition, direction and consequences of international trade.
- CO-2 Deliver information and knowledge of modern theories of international trade, importance of trade & recent trends and trade policy & regionalism.
- CO-3 Develop understanding on modern theories of international trade, importance of trade & recent trends and trade policy & regionalism.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to modern theories of international trade, importance of trade & recent trends and trade policy & regionalism.

3.9 Industrial & Labour Economics

- CO-1 Spread awareness among the learners about issues pertaining to the labour market, wage policy and trade unions.
- CO-2 Deliver information and knowledge of Indian Labour Market, Trade unionism, industrial relations and labour welfare and social security.
- CO-3 Develop understanding on Indian Labour Market, Trade unionism, industrial relations and labour welfare and social security.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to Indian Labour Market, Trade unionism, industrial relations and labour welfare and social security.

3.10 Research Methodology

- CO-1 Spread awareness among the learner about various skills in conducting economic research.
- CO-2 Deliver information and knowledge of statistical applications in research, index numbers, hypothesis and research report writing
- CO-3 Develop understanding on statistical applications in research, index numbers, hypothesis and research report writing
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to statistical applications in research, index numbers, hypothesis and research report writing.

3.11 Development Theory & Experience

- CO-1 Spread awareness among the learners about demographic concepts and their evolution during the process of development.
- CO-2 Deliver information and knowledge of demography & development, structural transformation, land, labour and credit market and the environment & development.
- CO-3 Develop understanding on demography & development, structural transformation, land, labour and credit market and the environment & development.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to demography & development, structural transformation, land, labour and credit market and the environment & development.

3.12 International Trade, Policy and Practice

- CO-1 Spread awareness among the learners about changing phase of international trade, policy and practice.
- CO-2 Deliver information and knowledge of emerging new international economic order, international financial institutions and international debts problem and role of foreign capital flow.
- CO-3 Develop understanding on emerging new international economic order, international financial institutions and international debts problem and role of foreign capital flow.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to emerging new international economic order, international financial institutions and international debts problem and role of foreign capital flow.

T.Y.B.A. (History)

Semester – V

4.1 History of Medieval India (1000-1526)

- CO-1 Spread awareness among the learners about history of early medieval India. CO-169 Deliver information and knowledge of Delhi Sultanate, Vijayanagar & Bahamani Kingdom.
- CO-2 Develop understanding on foundation, expansion, administrative structure and decline of Delhi Sultanate and emergence of Vijayanagar & Bahamany Kingdom.
- CO-3 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to foundation, expansion, administrative structure and decline of Delhi Sultanate and emergence of Vijayanagar & Bahamany Kingdom.

4.2 History of Modern Maharashtra (1848-1960)

- CO-1 Spread awareness among the learners about regional history, political & socio economic development.
- CO-2 Deliver information and knowledge of beginning of British Rule, Socio-economic awakening, political development in Maharashtra and emergence of new forces. CO-174 Develop understanding on British Rule, Socio-economic awakening, political development in Maharashtra and emergence of new forces.
- CO-3 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to British Rule, Socio economic awakening, political development in Maharashtra and emergence of new forces.

4.3 Introduction to Archaeology

- CO-1 Spread awareness among the learners about Indian Archaeology, Epigraphy and importance of Numismatics.
- CO-2 Deliver information and knowledge of methods of archaeology, Indian epigraphy and Indian scripts.
- CO-3 Develop understanding on methods of archaeology, Indian epigraphy and Indian scripts.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to methods of archaeology, Indian epigraphy and Indian scripts.

4.4 History of Maratha (1600-1707)

- CO-1 Spread awareness among the learners about history of Maratha. CO-181 Deliver information and knowledge of Maratha History, establishment of Swarajya and administration during the Royal period.
- CO-2 Develop understanding on Maratha History, establishment of Swarajya and administration during the Royal period.
- CO-3 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to Maratha History, establishment of Swarajya and administration during the Royal period.

4.5 History of Contemporary World

- CO-1 Spread awareness among the learners about major events of Post-World War II.
- CO-2 Deliver information and knowledge of cold war, Europe, USSR and U.S.A., movement for equal rights and major trend of globalisation, sustainable development and women's liberalisation movement.
- CO-3 Develop understanding on cold war, Europe, USSR and U.S.A., movement for equal rights and major trend of globalisation, sustainable development and women's liberalisation movement.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to cold war, Europe, USSR and U.S.A., movement for equal rights and major trend of globalisation, sustainable development and women's liberalisation movement.

4.6 Research Methodology & Sources of History

- CO-1 Spread awareness among the learners about research methodology in history. CO-189 Deliver information and knowledge of sources of history, research methods and sources for writing India History.
- CO-2 Develop understanding on sources of history, research methods and sources for writing India History.
- CO-3 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to sources of history, research methods and sources for writing India History.

Semester – VI

4.7 History of Medieval India (1526-1707)

- CO-1 Spread awareness among the learners about history of medieval India since emergence of Mughal rule.
- CO-2 Deliver information and knowledge of rise of Maratha power. CO-194 Develop understanding administration of Mughal Empire.
- CO-3 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to Mughals.

4.8 History of Contemporary India (1947-2000)

- CO-1 Spread awareness among the learners about socio-economic changes and progress in science and technology in India.
- CO-2 Deliver information and knowledge political development in India after independence.
- CO-3 Develop understanding about process of making Constitution and reorganization of Indian States.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to Constitution and reorganization of Indian States.

4.9 Introduction to Museology & Archival Science

- CO-1 Spread awareness about management of Archives.
- CO-2 Deliver information and knowledge of role of museum in preservation of heritage.
- CO-3 Develop understanding on importance of Archival Science in the study of history.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to career in various museum and Archives in India and abroad.

4.10 History of Maratha (1707-1818)

- CO-1 Spread awareness about process that led to expansion of the Maratha power.
- CO-2 Deliver information and knowledge of contribution of Maratha in the national politics.
- CO-3 Develop understanding on society and culture in Maharashtra.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues Maratha history.

4.11 History of Asia (1945-2000)

- CO-1 Spread awareness about major changes that occurred in Asia after World War II
- CO-2 Deliver information and knowledge of trends that emerged in Asia.
- CO-3 Develop understanding on Asian Nations control on West.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to history of Asia.

4.12 Research Methodology & Sources of History

- CO-1 Spread awareness about basics of research methodology in history.
- CO-2 Deliver information and knowledge of new trends and approaches in history writing.
- CO-3 Develop understanding on kinds of sources of history and its interpretation.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues research methodology & historical sources.

5 T.Y.B.A. (History & Geography)

Semester – V

5.1 History of Medieval India (1000-1526)

- CO-1 Spread awareness among the learners about history of early medieval India.
- CO-2 Deliver information and knowledge of Delhi Sultanate, Vijayanagar & Bahamani Kingdom.
- CO-3 Develop understanding on foundation, expansion, administrative structure and decline of Delhi Sultanate and emergence of Vijayanagar & Bahamany Kingdom.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to foundation, expansion, administrative structure and decline of Delhi Sultanate and emergence of Vijayanagar & Bahamany Kingdom.

5.2 History of Modern Maharashtra (1848-1960)

- CO-1 Spread awareness among the learners about regional history, political & socio-economic development.
- CO-2 Deliver information and knowledge of beginning of British Rule, Socio-economic awakening, political development in Maharashtra and emergence of new forces.
- CO-3 Develop understanding on British Rule, Socio-economic awakening, political development in Maharashtra and emergence of new forces.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to British Rule, Socio economic awakening, political development in Maharashtra and emergence of new forces.

5.3 Introduction to Archaeology

- CO-1 Spread awareness among the learners about Indian Archaeology, Epigraphy and importance of Numismatics.
- CO-2 Deliver information and knowledge of methods of archaeology, Indian epigraphy and Indian scripts.
- CO-3 Develop understanding on methods of archaeology, Indian epigraphy and Indian scripts.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to methods of archaeology, Indian epigraphy and Indian scripts.

5.4 Geography of Settlement Paper-IV

- CO-1 Spread awareness among the learners about settlement geography.
- CO-2 Deliver information and knowledge of geography of rural settlement and urban settlements
- CO-3 Develop understanding on rural settlement in India and urban settlement in India.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to rural and urban settlement.

5.5 Geography of Maharashtra – V

- CO-1 Spread awareness about geographical setting of Maharashtra
- CO-2 Deliver information and knowledge of natural & human resources, agriculture, fishing & livestock resources, industries, trade and transport.
- CO-3 Develop understanding on natural & human resources, agriculture, fishing & livestock resources, industries, trade and transport.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to natural & human resources, agriculture, fishing & livestock resources, industries, trade and transport.

5.6 Tools & Techniques in Geography for Spatial Analysis-I Paper VI (Practical)

- CO-1 Spread awareness about tools and techniques of geography for spatial analysis among the learners.
- CO-2 Deliver information and knowledge of map projection, basics about map, survey of India toposheets, thematic map and use of computer in geographical data representation.
- CO-3 Develop understanding on map projection, basics about map, survey of India toposheets, thematic map and use of computer in geographical data representation.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to map projection, basics about map, survey of India toposheets, thematic map and use of computer in geographical data representation.

Semester – VI

5.7 History of Medieval India (1526-1707)

- CO-1 Spread awareness among the learners about history of medieval India since emergence of Mughal rule.
- CO-2 Deliver information and knowledge of rise of Maratha power. CO-242 Develop understanding administration of Mughal Empire.
- CO-3 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to Mughals.

5.8 History of Contemporary India (1947-2000)

- CO-1 Spread awareness among the learners about socio-economic changes and progress in science and technology in India.
- CO-2 Deliver information and knowledge political development in India after independence.
- CO-3 Develop understanding about process of making Constitution and reorganization of Indian States.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to Constitution and reorganization of Indian States.

5.9 Introduction to Museology & Archival Science

- CO-1 Spread awareness about management of Archives.
- CO-2 Deliver information and knowledge of role of museum in preservation of heritage.
- CO-3 Develop understanding on importance of Archival Science in the study of history.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to career in various museum and Archives in India and abroad.

5.10 Environmental Geography-IV

- CO-1 Spread awareness among the learners about environmental geography.
- CO-2 Deliver information and knowledge of ecosystem and biodiversity.
- CO-3 Develop understanding about environmental challenges in India, sustainable development and environmental management.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to environmental geography.

5.11 Geography of Tourism and Recreation – V

- CO-1 Spread awareness among the learners about tourism geography.
- CO-2 Deliver information and knowledge types & impact of tourism and infrastructural and ancillary services.
- CO-3 Develop understanding about planning of tourism & organization and the potential tourism sectors in Maharashtra & tourism policy.
- CO-4 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues related to geography of tourism and recreation.

5.12 Tools & Techniques in Geography for Spatial Analysis-II Paper VI (Practical)

- CO-1 Spread awareness among the learners about statistical concepts and terms. CO-261 Deliver information and knowledge data, central tendency, dispersion & deviation, correlation, regression and hypothesis testing.
- CO-2 Develop understanding on collection of physiographical, socio-economical and geospatial data.
- CO-3 Apply the knowledge, understanding gained and skills acquired in practical situation to solve difficulties, problems and issues to research statistics and collection of various types of data.

c. Bachelor of Commerce (Financial Accounting & Auditing)

1. F.Y.B.Com.

Semester – I

1.1 Accountancy & Financial Management – I

- CO-1 Spread awareness among the learners about accounting & financial management.
